

I Love You More

Ian Kelly

There's a table in the corner of the diner where I love you more
Than I loved you before
And we are able to get older and forever share a single front door
And never be cold

**I swear there is nothing I would do any differently
I swear there is nothing I would do any differently**

There's a light that I keep on at night when I feel lonesome and blue
I feel empty without you
You are right thinking there is just one thing that I want to do
Spend my time with you

**I swear there is nothing I would do any differently
I swear there is nothing I would do any differently**

**I swear there is nothing I would do any differently
I swear there is nothing I would do any differently**

There's a table in the corner of the diner where I love you more
Than ever before

I Hope to see you again

The evening rain has stopped for now
There is enough sorrow on the block
you see a man beneath a dark old cloud
Out of love and out of luck

And you take a moment just to listen to his thoughts
You hear about the fights he's fought

**"I hope to see you again"
"I hope to see you again, friend"
There's a time and a place to care
and it's now and everywhere**

She is a girl with a lot to give
In her darkness she had her doubts
Now she is thankful she decided to live
You just showed her a light that led to a house

**“I hope to see you again”
“I hope to see you again, friend”
There’s a time and a place to care
and it’s now and everywhere**

**“I hope to see you again”
“I hope to see you again, friend”
There’s a time and a place to care
and it’s now and everywhere**

Comforting Soul

I need to rest my feet
until the morning rises
Find something decent to eat
Not from that chain I despise

Roaming around here
Finding a town there

**I found a comforting soul
Never mind the lies I was told
It seems that everywhere i’ve been I had been before**

**I found a house that’s a home
I feel I won’t be alone
It seems that everything I do I want to do for you**

I want to share your bed
I want to hear your heart
No matter what you said
I know we’ll never come apart

Roaming around here
Finding a town there

**I found a comforting soul
Never mind the lies I was told
It seems that everywhere I've been I had been before**

**I found a house that's a home
I feel I won't be alone
It seems that everything I do I want to do for you**

I'd do anything, anything
for you

Before you take a different path
before I lose my other half
before I go back on the road
Before our love goes broke

I'd throw my heart right at your feet
I'll be right back save me a seat
I will not leave you in the cold
I'll air out all the smoke

**I found a comforting soul
Never mind the lies I was told
It seems that everywhere I've been I had been before**

**I found a house that's a home
I feel I won't be alone
It seems that everything I do I want to do for you**

I'd do anything, anything
for you

Ready for love

I'm never going to lie to you
I'll walk on water but I'd never be untrue
I'm never going to lie to you

Time flies and I recognize that I've made mistakes
And I've let you down before
Old lies and teary eyes
now my life's at stake when I knock on your door

Open it wide

**I'm coming in, I'm coming in, I'm coming in
You're all I can think of
I'm coming in, for the last time
I'm ready for love**

I'm never going to let you down
I'm never going hurt you, I'll keep you safe and sound
I'm always gonna to be around

Time flies and we compromise
in a distant life we will never be apart
get wise and realize
that the key is in your heart

Open it wide

**I'm coming in, I'm coming in, I'm coming in
You're all I can think of
I'm coming in, for the last time
I'm ready for love**

When you think that you're holding me down
When you think that love's yet to be found
All you need is to take my hand
Feel my heart then you'll understand

If you're ever in doubt and withdrawn
If you feel that you are but a pawn
You need to, look into my eyes
See my soul and the love it comprises

Montréal

Je t'ai vu au coin d'une époque
Dans une autre ère, dont tu te moques
À l'heure où d'autres rêvent encore
Tu usais ton corps

Marcher en silence dans la pluie
Alterner bon sens et conneries
Au milieu d'une ville qui doute
suivre la déroute

**Montréal, Montréal, oublies-moi pas
Montréal, Montréal, oublies-moi pas
Si je m'installe loin de toi**

Tu avais longtemps oublié
Comment sourire, comment aimer
Et les matins de ta jeunesse
Et tes maladresses

Un peu d'amour et de bonheur
Pour soigner les enfants qui pleurent
Un peu d'attention d'un humain
Sans écran, sans rien

**Montréal, Montréal, oublies-moi pas
Montréal, Montréal, oublies-moi pas
Si je m'installe loin de toi**

Lorsque je regarde les étoiles
La noirceur a levé le voile

**Montréal, Montréal, oublies-moi pas
Montréal, Montréal, oublies-moi pas
Si je m'installe loin de toi**

*Sans m'arrêter j'ai pensé bien faire
Plus je recommence, plus ça m'exaspère*

*Si je voulais posséder une terre
Je devais m'en aller, T'as pas tout pour me plaire*

Mason Jars

Ian Kelly

She has Mason jars for glasses
She laughs at every dog that passes
She has a warm soul

She drops a pin and we all hear it
She moves a pinky, we all see it
She has the leading role

Oh oh oh when I dream about her

**Everything she makes has got a sweet taste to it
Everyone she greets has got a good place to sit
She's the key to my lock
And we're a perfect fit**

She makes sushi on christmas eve
She has a smile you wouldn't believe
Love's got the best of me

And when we're headed to the ocean
under a velvet sky in motion
I'm just a sucker for my baby

Oh oh oh and I dream about her

**Everything she makes has got a sweet taste to it
Everyone she greets has got a good place to sit
She's the key to my lock
And we're a perfect fit**

When I don't want to give
She doesn't feel like receiving
When I don't want to live
She makes sure that I keep on breathing

California

Oh Oh
I dream of California but I never want to leave you alone
Oh Oh
The love that I gave you, was the best that was ever shown
Smile
You're fulfilled for a little while

Oh oh
I smell a patch of roses on my way to lake Ontario
Oh Oh
I drove across the Midwest, I was bored out of my soul
Now
I am striving for the same old goal

**There is a place where I want to go
I'm looking for a little taste of gold
September 2nd, I'll be
Off to the shore
Off to the shore**

Oh Oh
I'm hoping it will work out, I'd be lying if I told you the truth
Oh Oh
I'm loving our arrangement but I feel like I am wasting my youth
Still
I am sitting in the very last row

**There is a place where I want to go
I'm looking for a little taste of gold
September 2nd, I'll be
Off to the shore
Off to the shore**

Stop / Hold on
I'm filled with doubts / Something feels wrong
Wait / Now turn around
Back to where I belong

**There is a place where I want to go
I'm looking for a little taste of gold
September 2nd, I'll be
Off to the shore
Off to the shore**

Comme un loup

Ian Kelly

Du bois de grange, mon gun à clous
pour te bâtir une maison

J'suis impatient, certainement fou
C'est jamais la bonne saison

**Et je bois, comme je dois
Je vis parmi les loups
Et je bois, comme je bois
prends tes jambes à ton cou**

Comme un cheval, je rêve debout
Lorsque j'imagine ton corps
Je suis un ours qui dort partout
Même si le printemps est dehors

**Et je bois, comme je dois
Je vis parmi les loups
Et je bois, comme je bois
prends tes jambes à ton cou
Ou bien reste**

Peut-être qu'on peut vivre ensemble
Et s'endurer pour toujours
On est sans cesse à apprendre
J'ai pas les réponses, mon amour

Le bois de grange est empilé
Tout au fond de la cour

**Et je bois, comme je dois
Je vis parmi les loups
Et je bois, comme je bois
prends tes jambes à ton cou
Ou bien reste avec ton loup**

You've Got to Know

Ian Kelly
©2015 MMIMP

In the midst of all this contradictory research
You don't know what to do
Seems like the second one always contradicts the first
And I contradict you

You've got to know
When to listen to your own heart

listen to your own head
Or listen to me

You've got to know
When it's time for a clean start
Time to stay in bed
Or time to let it be

You've got to know

Everything I read or hear about cancer
Makes me more confused
And everything we purchase on doctor's orders
And what I've seen on the news

You've got to know
When to listen to your own heart
listen to your own head
Or listen to me

You've got to know
When it's time for a clean start
Time to stay in bed
Or time to let it be

**You've got to know
You've got to know**

Here's a thought
Maybe less is more
Maybe what we need
can't be bought at the store

Here's a thought
Might be time for a change
Cause with all this greed
Things are way too strange

**You've got to know
You've got to know**

Let it all out

Ian Kelly

©2015 MMIMP

Leaving through the side door
long before then end
I need to write one more
Music will transcend

Let it all out
It is such a relief
Let it all out
What is your motif?

**Maybe I'm using all the same rhymes
When I write sorrow I'll sing tomorrow
And the rain gets me going sometimes
Some don't care, some want to know**

This one's not about lovin'
Nor about your eyes
Beats will get you movin'
Lyrics bring tears and smiles

Let it all out
It is such a relief

**Maybe I'm using all the same rhymes
When I write sorrow I'll sing tomorrow
And the rain gets me going sometimes
Some don't care, some want to know**

Snowflake

Ian Kelly

I am just a little flake of snow
A little speck in the world that you know
I am just a tiny grain of sand
You wash ashore with the back of your hand

You may draw the largest crowds
Everyone knows what you're about

Feet on the ground, head in the clouds
In the midst of an emotional drought

**But you feel love
When I feel love
And you get scared
When I am scared**

I am just a little drop of love
In an ocean of hate, that is my fate

I am just a small amount of me
Against a whole lot of you, what can I do?

You may draw the largest crowds
Everyone knows what you're about
Feet on the ground, head in the clouds
In the midst of an emotional drought

**But you feel love
When I feel love
And you get scared
When I am scared**

**Who will see, the best of me?
Who will root for me?**

I am just a particle of dust
In the grand scheme of things, I just get lost

But it seems, I am not a lonesome atom
I've got dreams and a thick family album

You've got your reasons to love me

Ian Kelly
©2015 MMIMP

In a perfect world
You'd be here with me
With your bliss filled mind
And your reasons to love me

Walking past the windows
Where the ducks are hung

Followed by our shadows
We're going home

**On and on, 'til the summer's here
Sing your song, close to my ear**

**Long time gone, when the dark sky clears
We belong together my dear**

In a little hell
Sipping on some wine
Everyone can tell
I already drank mine

**On and on, 'til the summer's here
Sing your song, close to my ear**

**Long time gone, when the dark sky clears
We belong together my dear**

**On and on, 'til the summer's here
Sing your song, close to my ear**

**Long time gone, when the dark sky clears
We belong together my dear**

On and on

When the Sun Goes Down

Ian Kelly

When you call my name
In your delicate way
I forget the world

It's a crying shame
That you're leaving today
let me gather my words

**When the sun goes down
on all that we know**

**When the sun goes down
Sadly you will go**

In an empty room
love that gravitates
lights and silent grief

In your perfect bloom
in a blissful state
it's in the tea leaves

**When the sun goes down
on all that we know
When the sun goes down
Sadly you will go**

When you call my name
In your delicate way
I forget the world

It's a crying shame
That you're leaving today
let me gather my words

**When the sun goes down
on all that we know
When the sun goes down
Sadly you will go**
